

CLIMATE AND FOOD JUSTICE NOW!

THE RIGHT

TO GROW

**More access to fresh food = better health and
reduced cost to health services**

**Reduced reliance on high carbon food imports,
creating more sustainable diets**

**Making spaces for wildlife and communities
& cooling urban heat spots**

**A grassroots solution, so that people can
transform the places they call home**

BARRIERS TO COMMUNITY GROWING

- Limited land access
- Fragmented council policies
- Low prioritisation of community growing
- Disconnect of community growing from authorities' wider food and climate policies

WHAT IS THE RIGHT TO GROW?

- Authorities prioritising community growing and trusting citizens more
- 'Permission' replaced with a rights-based approach to land access
- Easy-to use lists of available public land
- Simple, free licences for community groups
